

## Join our Online Learning Community

Great to have you on board as a student!

This course also comes with free access to our "**Academind Community**" on Discord: "[Academind Community](#)".

There, you can find **like-minded people**, **discuss** issues, **help each other**, share progress, successes and ideas and simply **have a good time!**

---

I believe that you learn the most if you **don't learn alone** but find learning partners and other people with similar interests. Our community is a great place for this - it's the perfect complimentary resource for this course.

**Joining it is of course free and 100% optional and of course not required to finish this course.**
